

WEBINAR**Annex 1 - A Focus on its Main Issues**
The EIPG position on the last version**MONDAY 28TH SEPTEMBER 2020 AT 16:00 BST (17:00 CEST)****Register here and participate for free!****OVERVIEW OF WEBINAR**

This webinar summarizes the most relevant comments to the V12 draft document of Annex 1 (appendix of Eudralex Vol. 4 EU GMP) as developed by the EIPG national working groups and delivered to EC for consideration for the preparation of the final Annex to be published. Comments are mainly focused on the key issues about the aseptic process, such as premises, personnel, production technologies and process monitoring.

LEARNING OUTCOMES

By attending this webinar, you will:

- Understand the most relevant changes introduced in the draft V12 of Annex 1 and their impact for the manufacturers of the sterile products
- Understand how EIPG members commented on the points which are unclear or open to different interpretation

SPEAKER

Dr. Francesco Boschi

Dr. Boschi studied biology at the University of Milan and obtained his post-doc Degree in Applied Biotechnology in 1997. He initially joined an R&D Group in Milan University performing research activities focused on the fermentation processes development of industrial interest by genetically engineered yeast strains. He has 15+ years' experience within different QA and QC positions in the industrial microbiology and sterility assurance area (Pharmacia & Upjohn, Patheon, Eli Lilly, GSK). His current position (since 2018) is within the Pfizer global Microbiology and Aseptic Team (MAS) supporting the sterile injectable network of Pfizer Global Supply (PGS).
